LAOS WATER FILTER
FUNDRAISING CAMPAIGN
— 2026 —

Clean Water
Brighter Futures
♡

A Simple Filter. A Healthier Tomorrow.

CLEAN WATER CHANGES LIVES IN LAOS

A water filter costs **\$125 CAD** (about \$100 USD) and provides clean, safe drinking water for a family in remote northern Laos. These filters **last approx. 10 yrs** with minimal maintenance. Our goal is to provide at least **1,000 filters** — enough to help **6 or 7 villages** (approximately **6,500 people**) gain access to clean water and a dramatically improved quality of life.

HEALTHIER
FAMILIES

COMMUNITIES

A BRIGHTER
FUTURE

“

“After using the filters, our children stopped dying.”

CHIEF OF A VILLAGE IN LAOS

Villagers carry cement or sand to the dam site on the other side of the mountain... not easy, but they are smiling!

Demonstrating the care and maintenance of a water filter in a village.

To make a donation or get all the donation details, please contact Steve Rutledge at
AdoptAVillageinLaos@gmail.com

Thank you for making a difference! ♡
